

K-Love has become the number one radio station in my life. It is the most positive and encouraging station I have been able to find in my area. I believe that it is a positive influence on myself, my family, and also the community. It is a wonderful alternative to all the secular stations found on FM radio. K-Love works to encourage the public. K-Love for me personally is the best "pick me up" of the day.

No matter how I am feeling and the kind of day I have had, I can turn K-Love on and feel better. It encourages me to get involved my my community, to reach out and make a difference. K-Love's only interest is to better the lives of their listeners, which will in turn better the lives of all who come into contact with the listeners. I personally have seen K-Love along with the power of God transform the lives of my loved ones. Turn interfere with K-Love's power to transmit in all areas would truly be a disaster in my life and the lives of all the listeners.
